WFP

States distributing/proposed to distribute fortified wheat flour in the PDS

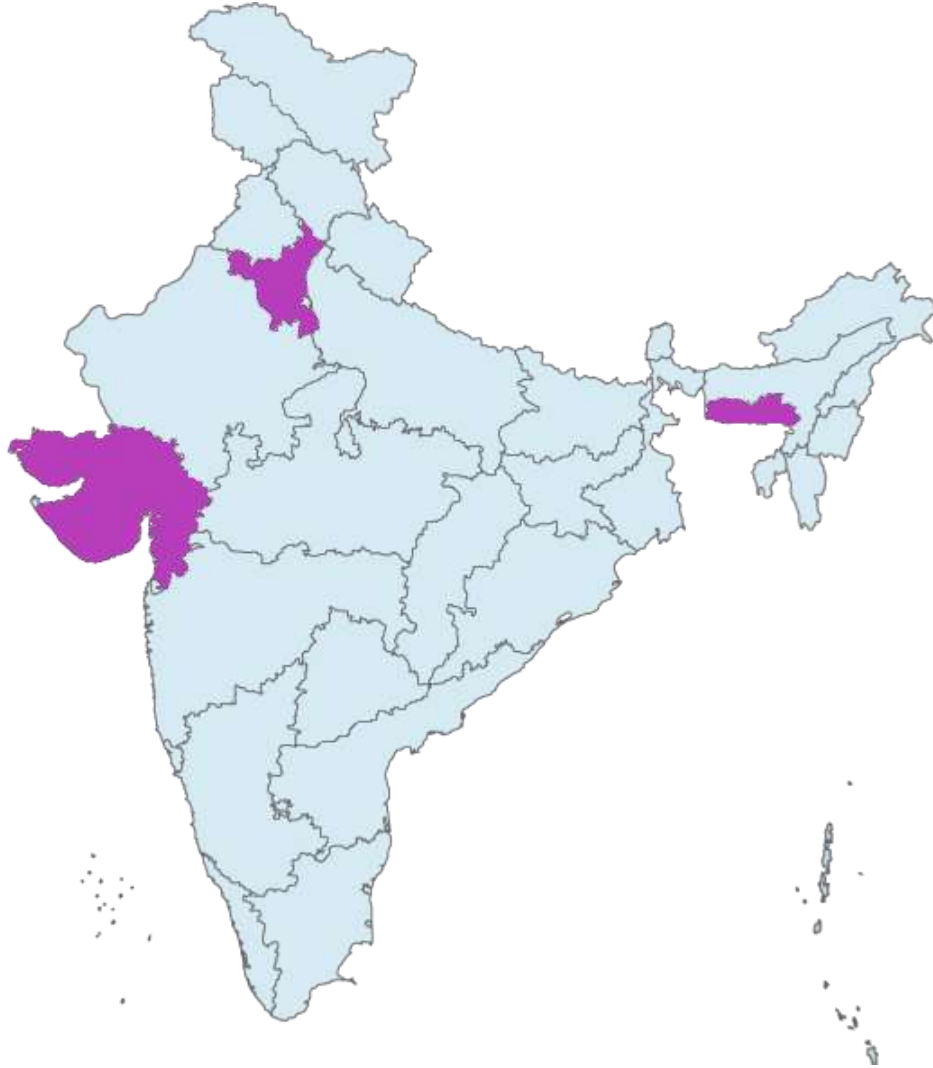

Haryana, Gujarat, Punjab, Andhra Pradesh, Telangana, Karnataka, Odisha, Himachal Pradesh, Kerala, Andaman & Nicobar Islands, Tripura, Meghalaya, West Bengal

States distributing/proposed to distribute fortified wheat flour in the MDM

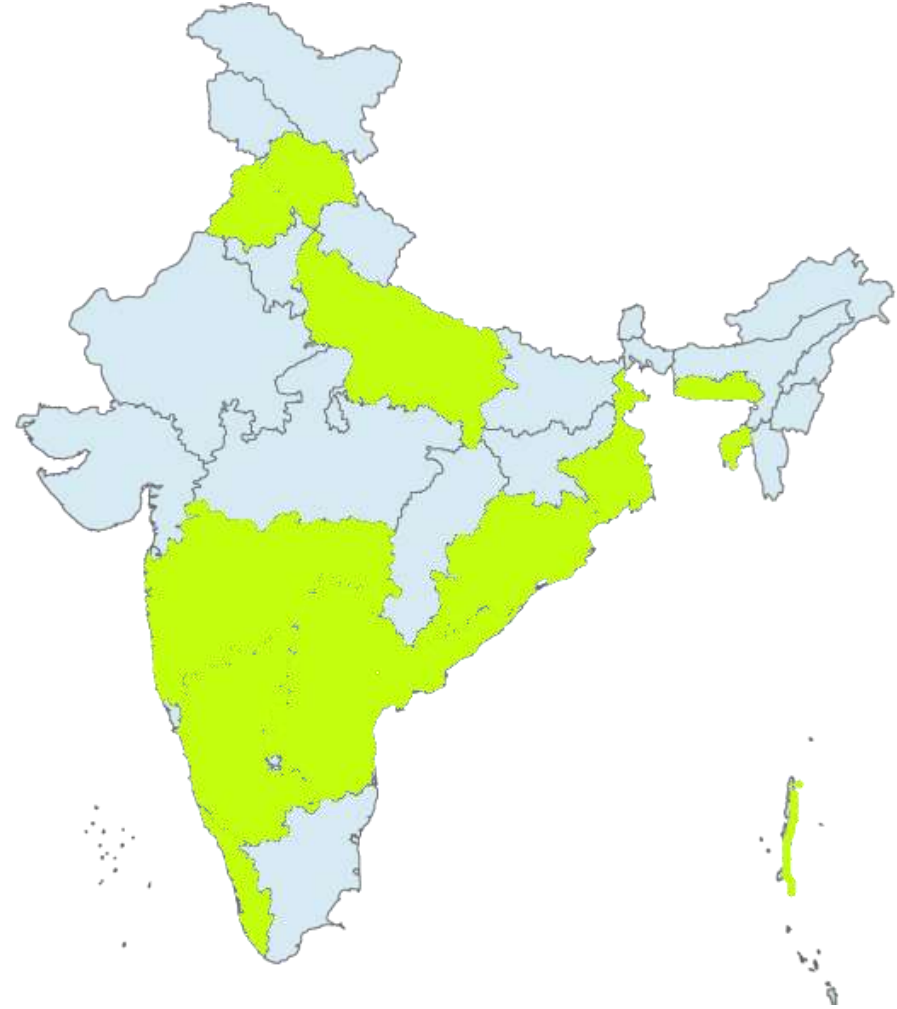

Haryana, Gujarat, Punjab, Andhra Pradesh, Telangana, Karnataka, Odisha, Uttar Pradesh, Delhi

States distributing/proposed to distribute fortified wheat flour in the ICDS

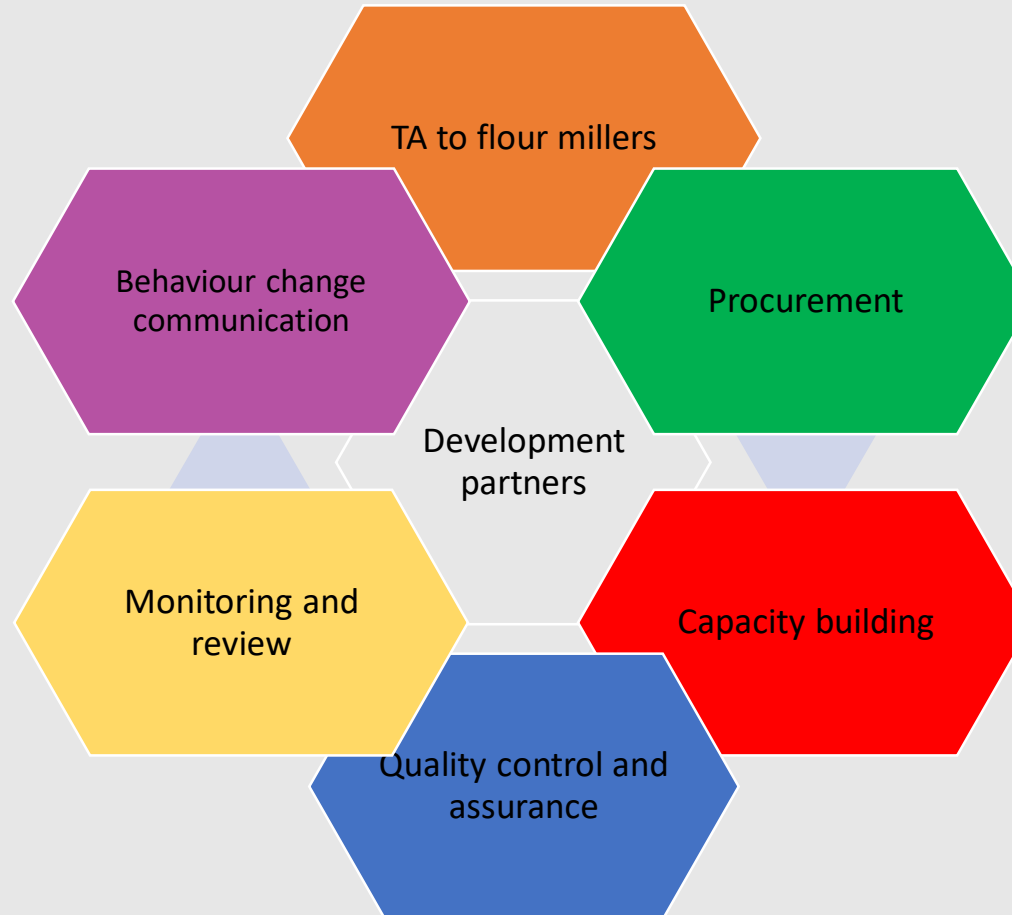

Haryana, Gujarat, Meghalaya

States distributing/proposed to distribute fortified wheat flour in the open market

Maharashtra, West Bengal, Meghalaya, Tripura, Punjab, Andhra Pradesh, Telangana, Odisha, Karnataka, Himachal Pradesh, Kerala, Andaman & Nicobar Islands, Uttar Pradesh, Delhi

Support on offer to States on Wheat Flour Fortification

Support on offer to States on Wheat Flour Fortification

TA to flour millers

- Selection of fortificant and equipment
- Auditing and assessing the selected and/or provisional wheat flour mills in terms of GMP, GHP, premix
- Providing the protocols for Good Manufacturing Practices (GMP) and Good Hygiene Practices (GHP) to the state selected wheat flour millers
- Feedback to QA/QC results

Capacity building of different stakeholders

- Development of training modules
- Trainings of govt. staff, millers, FLWs
- *Training and capacity building of selected flour mills to adequately and appropriately fortify wheat flour, procurement, handling and storage of premix.*

Support on offer to States on Wheat Flour Fortification

Procurement

- Budget and requirement estimates
- TA in preparation of tender documents

Quality control and assurance

- Develop QA/Q mechanisms for FWF
- Third party lab. testing
- Strengthening the capacity of millers in Quality Assurance and Quality Control (QA-QC)
- Providing support in strengthening the state laboratories to test micronutrients in fortified wheat flour
- Building capacity of Food Safety Officers in the state for supporting regulatory monitoring

Support on offer to States on Wheat Flour Fortification

Monitoring and review

- Independent monitoring and feedback to govt.
- Conducting random sample checks for assessing the quality of fortified wheat flour and the levels of fortification.

Behaviour change communication

- Develop prototype material
- Develop and design communication messages
